

LOW-COST, CARTRIDGE-FREE PRINTING.

EPSON
ECOTANK
L4160

DESIGNED FOR SIMPLICITY.

The wireless multifunctional EcoTank L4160 offers you the revolutionary cartridge-free printing - easy to use and ideal for your everyday tasks. From the start you have enough ink to print up to 14,000 pages in Black and 5,200 pages in Colour before the tank needs to be refilled.

Reducing costs without compromising quality,

with the Epson genuine ink bottle sets that are equivalent of about 82 cartridges worth of ink, saving up to 90% in ink with inexpensive replacement bottles.

An Epson business inkjet printer consumes one twentieth of the power required to run an equivalent laser printer. Much of this is due to it being a cool technology - one that doesn't require heat in its printing process.

MAKE THE SWITCH.

WHY CHOOSE INKJET?

Reducing costs, without compromising quality

A high-speed, high-quality solution that drops millions of dots per second onto the page, creating high quality prints that use the minimal amount of ink required. Such precision control means less energy consumption - reducing costs and the need to frequently replace printing equipment.

Inkjet Tackle Speed

Mechanical simplicity, and very little required user intervention, means reduced demands on staff time. Changing ink takes seconds and they don't require warm-up time, reducing waiting times and print queues.

A Sustainable Advantage

Press 'PRINT' and save more than money. A unique approach to the market, not only because of the CO2 reduction. Business Inkjets deliver an unparalleled threefold benefit of lower energy consumption, reduced waste and enhanced sustainability.

ULTRA-LOW COST, COMPACT DESIGN.

WHY CHOOSE EPSON?

Global market leader

Epson were the first to offer purpose-built cartridge-free printers and now the company is the No.1 ink tank printer vendor in the world. Over 40 million EcoTank printers have been sold worldwide.

3 out of 4 ink tank printers sold to date are Epson.

Faster than competitor models

No matter how much ink a document needs, EcoTank delivers a single-page print time that's faster than the nearest competitor models.

Intelligently designed

With our latest generation of purpose-built EcoTank printers, the ink tank is positioned at the front of the printer. This new design is compact, provides easy access for refilling, and a clear view of the ink levels. It features an enhanced ink filling system engineered to minimise the risk of spills and mess. On average, the Ecotank takes up 22% less space at home or in the office than other printers will.

Reliability

Unlike other manufacturers, Epson printheads are permanent. You won't have to budget for a replacement printhead or have the inconvenience of fitting one.
